GUTHRIE, O. T., June 29—[Special.]—The last few days have been prolific of surprises to Oklahoma. The appointments to office have come like thunderbolts from a class to the come like thunderbolts. clear sky to the expectant applicants for political rewards. Judge Lowe's appointment as register of

the Guthrie land office is well received. Judge Lowe is a native of Louisiana and is 45 years old. He removed to Texas and spent many years in his adopted state. At the opening of Oklahoma he became a resident of Guthrie. He has been engaged since the opening in the practice of law. He is a fine specimen of manhood physically, is a good lawyer, and a man

physically, is a good lawyer, and a man whose record is unimpeachable. He will enter upon the duties of his office with the good will of all irrespective of party. In the appointment of James Corbett of Kentucky as receiver of the Guthrie land office, home rule has received a blow. From the meager information to be obtained regarding the appointee, it seems that he has held several important offices in Kentucky with credit to himself and his constituency. He is reported as being every way qualified for the position, and the only thing brought up against his appointment is that he is a non-resident of the territory.

The gentiamen above mentioned will find the office in excellent condition. Messrs. Burnes and Overstreet have so tonducted affairs as to receive commendation from the inspectors and special agents who have been sent at intervals to examine their accounts.

Governor Reafrow has been under the weather for a day or two, caused by overwork. He is a hard workel, and his duties are arduous. When he will visit the world's fair is uncertain. The change of the heads of the different departments necessifates his being at his post.

Marshal Nix takes possession of his office to morrow. He dedings for the present to give the press his appointments as deputies. Everything will be ready to turn over in the morning. Chief Deputy Charles Madsen has applied the army method in the keeping of accounts and a clean record will be the result. Of the hundreds of thousands of dollars expended not a dollar will be unaccounted for.

Secretary Martin has issued charters to the J. I. Case Threshing Machine company of Racine, Wis, and to the First Methodist Episcopai cherch of Mulhall.

CHICAGO, June 29.-While silver was selling to New York at 62 cents per ounce wheat was being offered here at 62% cents per bushel for July, a price far below all previous slumps. The chief and immediate cause of the demoralization was the surprising announcement in a cablegram that India had produced in five districts 56,000,000 bushels more wheat this year than in 1892. All previous reports had led to the belief that the Indian crop was a to the belief that the Indian crop was a short one. July opened at 63 cents, % cent lower than yesterday's close, and September at 69 cents, a decline of 14 cent. July soon made a break to 62 cents, and September to 65 cents, smasning the record for cash wheat. The trading throughout was marked by considerable nervousness and excitement. There was a slight gain at the close.

Corn was weak following wheat; it opened lower, railied slightly, but July weakened, closing 16 cent lower. Sep-

latter was weak but the former was strong, and closed & cent higher.

The feature in provisions was the widening out of the carrying charges for lard from July to September to 80 cents early. At the close they were 70@72% cents. The difference in pork and rebs also spread,

The rates for call loans today reached the sig lest figures since the present stringency set in. The rates rose to 3-16 per cent, per annum. In order to relieve the stringency efforts were made to have the banks take out clearing-house certificates, and the loan committee issued 36-390,000 in such certificates. The amount now outstanding is \$13,339,000. This relieved the stringency and call loans dropped to 4 per cent, per annum, but rose again to 25 per cent. Dealings in time money and mercantile paper were practically at a stand-still. The stringency in money demoralized sterling exchange, and selling rates fell below the gold importing point. The bankers were liberal sellers of bills, in order to take advantage of the Eigher rates for money. Silver dropped from 65/g to 62 cents, and Mexican d flora fell to 45 cents.

Boston, June 29.—The strain, on the financial situation today was severge than ever. Stocks were demoralized at the start, and it looked for a time as if the much-dreaded panic was about to break. The liquidation was extremely heavy, and under the pressure prices tumbled badly. In several instances, notably in Atchison and Union Pacific, the lowest prices on record were scored. The former was down to 19% and the latter touched 23%. A gain was secured, however. The banks were calling in loans on all sides, and some of the best houses had to pay abnormally high rates to get carried through.

London, June 29.—The stock market was excited and prices depressed, being 1/2 per cent under yesterday's close. Bar saver dropped to 31/2 pence, a decline of 2/3 pence under yesterday's price. Stocks closed unsettled. Silver securities were seriously depressed and American railroads flat. The settlement which was entered upon today passed off Satisfactorily.
